THE ORIGINE COLLECTION

Framework

ACCESS PANELS **A** AND CONDUITS POINTS **B**

Designed for easy access and connections to services such as electrical, gas and plumbing.

NACRAË™ FINISHES

Super durable NACRAË™ powder coated finish with anti-microbial protection included on all cabinets, planters and accessories surfaces.

UNIVERSAL TRACK SYSTEM

Accessories can be added or moved to maximize efficiency, functionality and full cabinet usage. Mix and match drawers, shelves, refuse and more...

CONSTRUCTION
Non-combustible marine grade aluminum and outdoor grade 304 stainless steel hardware.

INTEGRATED BACKSPLASH SYSTEM

Extruded aluminum with NACRAË™ powder coating.
Matching Clip-in Planters and other accessories available.

COMPATIBILITY

Designed to integrate effortlessly with your preferred outdoor appliances, creating a fully customized space that reflects your lifestyle.
Ready to receive Dekton® and other outdoor-rated countertop materials.

A SOLID FOUNDATION

Commercial-grade 304 stainless leveling legs on every cabinet.
Self-leveling toe kick that adapts to slope and outdoor site conditions.

A Modern Farmhouse in Mulmur, Ontario

This modern farmhouse-style outdoor pavilion is the ultimate outdoor living and entertaining space. Designer Lisa Aiken, of Terra Firma Design, worked with the homeowners to renovate the property both inside and out. "The outdoor space was completely reconfigured with a wrap-around porch connecting all the various areas within the farmhouse," she explains. The porch opens onto an expansive outdoor pavilion, with a large pool and lounging area, a full chef's kitchen and a spacious dining and living area, complete with a stone fireplace.

"I provide the project's dimensions and needs, the gorgeous color, the handles, and the inserts I want, and they take care of the rest. What could be better? I haven't looked back since! The entire process from start to finish was made easy for me as a designer and easy for the contractor to install."

— Lisa Aiken, Terra Firma Design

A Rustic Outdoor Pavilion in Puslinch, Ontario

"The stone cladding around the cabinets and along the back wall are a perfect complement to the warm taupe of Urban Bonfire's Clay finish. The dark iron fixtures are reflected in the Dekton Radium countertops. Frontier Design and Build's solid wood shelves and timber light fixtures create a textural counterpoint to Urban Bonfire's streamlined design. It all works beautifully together!"

— Aileen Brown, Paragon Kitchens

NACRAE™ Powder Coated Finish: Clay
Handle Model: Bauhaus in Black Bronze

A Hideaway in Sechelt, British Columbia

This peaceful outdoor space in Sechelt, British Columbia by Emerge Design is a home away from home for a young and busy family. Dark and naturally light tones marry to create a dynamic yet comfortable space in which to relax and unwind.

NACRAE™ Powder Coated Finish: Onyx
Handle Model: Stainless Steel

An Outdoor Kitchen Fit for a Chef in San Diego, California

"My outdoor kitchen has the functionality to be able to withstand living by the beach in San Diego and being outside for years and years. It also has the functionality of the built-in drawers and shelves, as well as pull-out trash and recycling, just like an indoor kitchen does. Working with the Urban Bonfire in-house design team was great. They were able to use the specs that I gave them and design a beautiful kitchen that was both functional and gorgeous."

— Whitney Bond, homeowner

NACRAE™ Powder Coated Finish: Anthracite
Handle Model: Bauhaus in White Bronze

A Thoughtful Outdoor Space in Palm Desert, California

With expansive views of Joshua Tree National Park, this outdoor cooking and entertaining space was designed for a true cooking enthusiast. The homeowner, Dale Seiden, has a background in high-end custom commercial kitchen design and wanted to create the ultimate outdoor entertaining space in a small footprint. His challenge was keeping the space functional, without overcrowding it with appliances.

"This is an amazing company: the quality of the product, workmanship and ease of installation. The Urban Bonfire team is easy to work with. They're responsive, proactive and make the experience the best there is, period. I love the product because of the company's DNA."

— Dale Seiden, homeowner

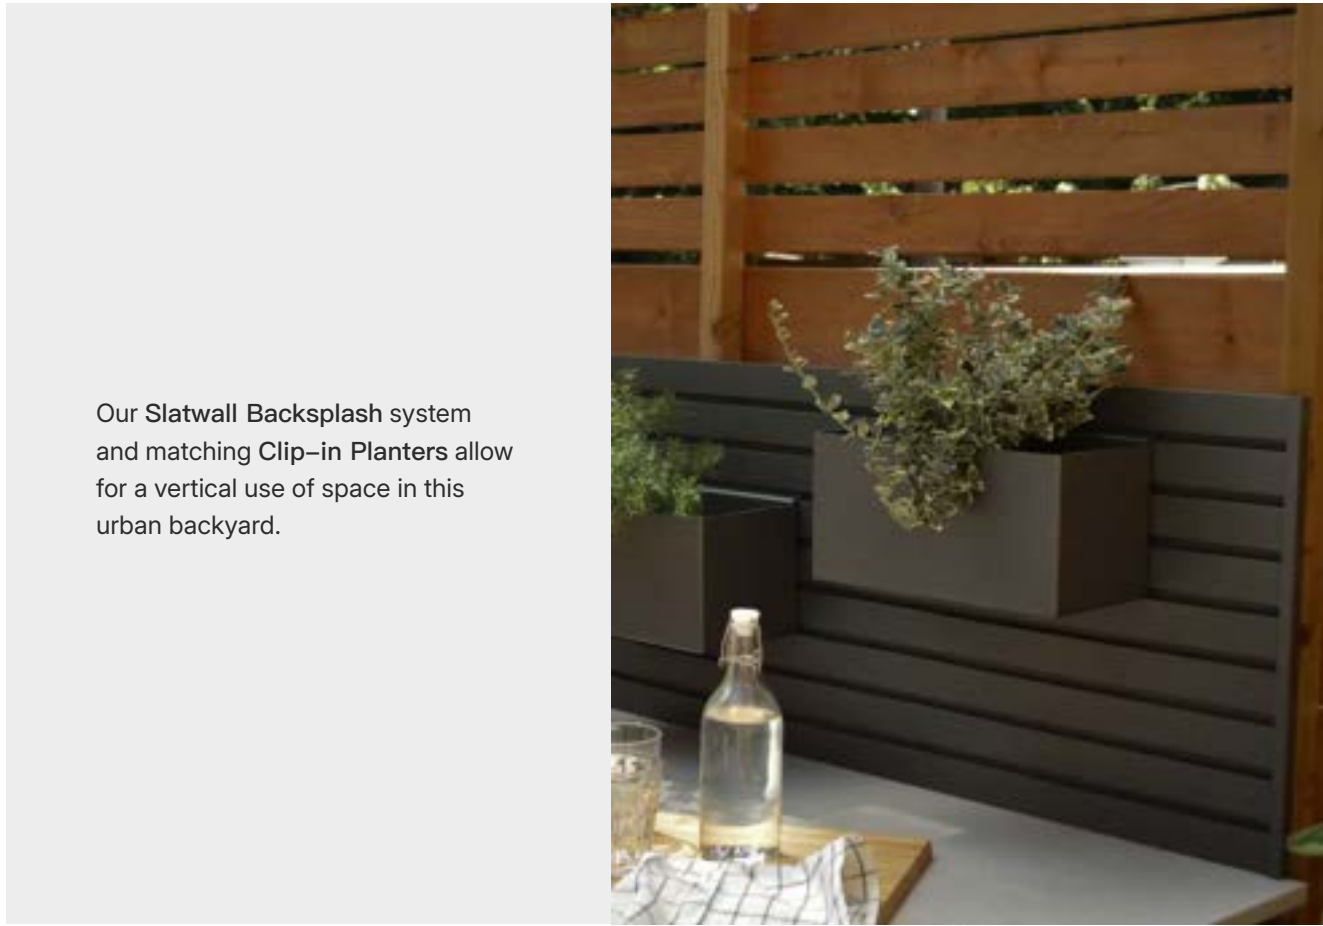

NACRAE™ Powder Coated Finish: Pewter
Handle Model: Stainless Steel

A Home in the Heart of Montréal, Quebec

"We live in an urban neighborhood with a small backyard and we wanted to maximize our space for outdoor living. The amazing designers at Urban Bonfire got it right the first time. The design fit the space perfectly and corresponded exactly to what we needed."

— Micol and Charles, homeowners

Our Slatwall Backsplash system and matching Clip-in Planters allow for a vertical use of space in this urban backyard.

NACRAË™ Powder Coated Finish: Anthracite
Handle Model: Stainless Steel

A Peaceful Backyard in Los Angeles, California

As part of a whole house remodel, actress Katee Sackhoff and her husband wanted a beautiful and functional outdoor entertainment space. Their outdoor kitchen includes generous functional storage space with a pull-out storage peg system on the far left, a pull-out garbage and recycling module between the Big Green Egg and the fridge, and an open shelving cabinet with lpe wood slats on the far right, ideal for housing glasses and plates when entertaining.

"Urban Bonfire's design team was so wonderful, sending us detailed preliminary design images and measurements so that we could get everything just right. And when it showed up, it fit PERFECTLY in the space. My husband was able to assemble the whole kitchen himself in one day and he said he was blown away by how lightweight but solid the aluminum cabinetry was."

— Katee Sackhoff, homeowner

The kitchen is framed by two matching Cube Planters and our Slatwall Backsplash with Clip-in Planters housing succulents.

CUSTOMIZATION FINISHES TECHNICAL FEATURES

Engineered for Life Outdoors

Our rugged cabinetry is designed, manufactured and tested in North America, and carefully assembled, inspected and packaged by experienced craftspeople.

Marine Grade Aluminum

Our marine grade aluminum is twice as thick as most stainless steel cabinetry on the market, yet lighter in weight. Aluminum is easy to transport and cooperates well during installations. It is the ideal material for extreme climates (snow, ice, salt water, humidity) and provides long-term quality.

Urban Bonfire's products and accessories are powder coated with our proprietary **NACRAE™ finish**. Inspired by the beauty, strength and resilience of mother of pearl, each finish is crafted with a micro-textured formulation that preserves and protects its beauty in all climates, creating a stable depth of color in any outdoor environment.

Now with revolutionary, all-natural, anti-microbial protection, our NACRAE™ finish is a standard feature on all Urban Bonfire products and accessories.

Durable

4-season formulation that resists scratches, fading and stains even in harsh climates.

Anti-microbial

Integrated all-natural, anti-microbial properties for maximum safety and freshness.

FDA-Approved

Environmentally sustainable material and process.

Specialty Colors

A collection developed in collaboration with iconic designers.

304 Outdoor Grade Stainless Steel

We use outdoor grade 304 stainless steel for our door slides, hinges, pulls and leveling legs.

NACRAË™ Powder Coated Finishes

 Compatible with our Classics Collection.

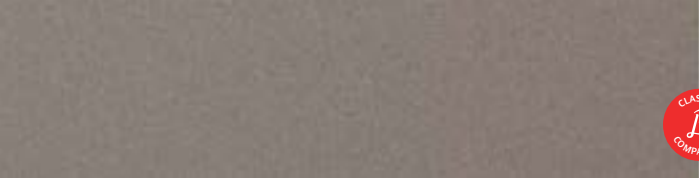

Anthracite (AN)
Modern dark gray with slate undertones. Elevates contemporary and outdoor urban environments.

Artesan (AR)
Dark gray finish with a warm bronze undertone. Designed to accent wood and natural limestone while creating a welcome contrast through its depth of tone.

Chantilly (CH)
This crisp white works in almost any outdoor setting. Reflecting tones of silk and clean linen.

Clay (CL)
An elegant and versatile rich beige. Enhances the mood and atmosphere of any classic outdoor living space.

Onyx (ON)
Deep, dark black that is sure to create a standout piece in any environment.

Pewter (PE)
Warm dark gray with bronze undertones. Adds a refined touch to any outdoor environment.

Colors digitally rendered. Actual products may vary.

Compatible with Outdoor-Rated Countertops

Our custom-made trim kits enable our cabinetry to accommodate surfaces of various thicknesses. For more information on countertop options, please speak with one of our in-house designers.

Handle Options

316 STAINLESS STEEL

BAUHAUS (3312)

URBAN (337)

PULL (341)

STANDARD INCLUSION
316 Stainless Steel

Each cabinet includes a premium outdoor grade 316 stainless steel handle.

For added resistance against harsh climates, and for greater personalization, these handles are also available with NACRAË™ powder coated finishes as an upgrade.

Available finishes

UPGRADE OPTIONS
“Living Finish” Solid Bronze

These handles are constructed from highly durable solid bronze. They include a “living finish” that protects them from excessive corrosion and allows them to age naturally in their environment. Like all bronze products, these handles gain character as they weather and age with expected changes in tone.

Contact us for available finishes.

Accessories

More than a cabinet, this is a functional and adaptable storage system. Choose from a selection of accessories in order to maximize the functionality of your outdoor kitchen. Using our Universal Track System, these accessories can always be adapted to suit your specific needs.

Activate your outdoor space with our selection of gardening and lifestyle products. Made of thick marine grade aluminum, our planters are available in our collection of NACRAE™ powder coated finishes and a wide array of shapes and sizes.

Our Slatwall Backsplash is designed to be both aesthetically pleasing and functional. Made of 6" tall panels, it can be configured to various heights and lengths and can house our Clip-in Planters and other accessories.

The Urban Bonfire Classics Collection

The Urban Bonfire Classics Collection offers a selection of our most popular outdoor kitchen configurations, colors and accessories. Designed to fit various spaces and entertaining needs, our collection features various functional storage options, sinks and faucets, and is compatible with numerous industry-leading appliance brands.

Professional Partner Program

The Urban Bonfire Professional Partner Program was developed to provide our Professional Partners with personalized service and support from our in-house design specialists along with exclusive rewards and joint content opportunities. Our program is open to approved designers, architects, builders, developers and landscape firms.

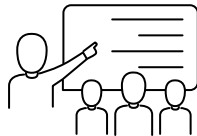

EXCLUSIVE PROFESSIONAL PARTNER EVENTS & TRADE SHOWS

Join us alongside industry-leading design professionals and brands to experience our products first-hand at trade shows and exclusive Professional Partner events.

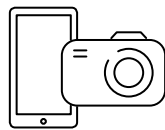

PROFESSIONAL DESIGN, QUOTING AND TECHNICAL SUPPORT

Work with our experienced and dedicated in-house design team and receive full back-end support and quality resources including drawings, technical specifications and expertise to ensure that your project is completed effectively and efficiently.

TRAINING SESSIONS

Schedule in-person or virtual trainings for you and your team. Gain access to our exclusive Fireside Chat Live sessions, short and high-impact live trainings on Zoom that are each followed by a Q&A with a member of our team.

JOINT CONTENT & MARKETING OPPORTUNITIES

We love to celebrate our professional partners and their clients. Work with our team to create an impactful piece of content highlighting your work and expertise and share the story behind your project.

Apply to our Professional Partner Program and join our community to participate in exclusive events like this.

Urban Bonfire Atelier

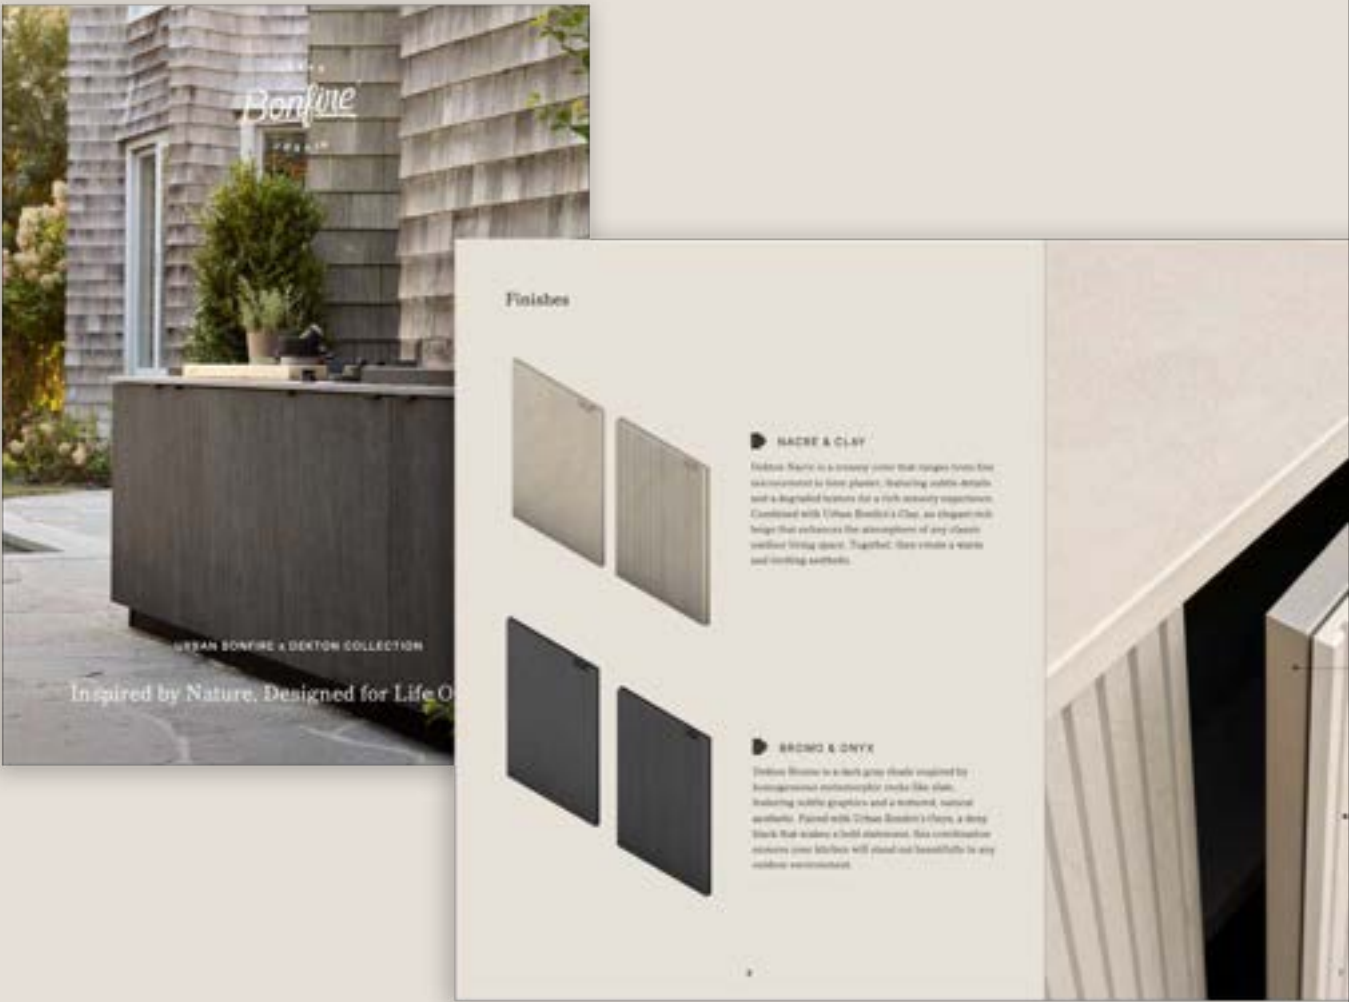

Noun | A · tel · ee · ay

Atelier is a French word describing an artist's studio or workshop. It can also describe a group of artists, designers or architects working collectively. An atelier is a space of creativity, learning and connection.

Urban Bonfire Atelier brings together industry-leading design professionals and brands in a casual and intimate setting to discuss what outdoor space activation means to them. It allows us to share our expertise as a team, but also to learn from individuals who are out in the field and using our products and services first-hand.
